J. C. UTTERBACK IS PRESIDENT OF NEW COMMERCIAL CLUB

S. A. Fowler Secretary, Sol Dreyfuss Vice-President, R. Rudy Treasurer.

Reorganized Last Night With Full Membership.

AUSPICIOUS START IS MADE

James C. Utterback, cashier of the City National bank, president of the Commercial club, reorganized last night with full membership. The officers of the club are: S. A. Fowler, secretary; Sol Dreyfuss, vice-president; R. Rudy, treasurer; Richard Rudy, cashier of the Citizens' Savings Bank; and J. C. Utterback, cashier of the City National bank.

The foregoing is the organization of the Commercial club, and if the enthusiasm and interest the 35 representative business and professional men displayed at the meeting at the Palmer House last night, called to put the finishing touches to the reorganization of Paducah's Commercial club, augurs anything, the club will be most successful. Notwithstanding the intense heat of the evening, the parlors of the hotel were crowded last night when Earl Palmer called the meeting to order, announcing its object.

W. P. Hummel offered Mr. Palmer's name to head the organization, but in a few well chosen words, and in a most complimentary manner, Mr. Palmer begged to propose the name of James C. Utterback.

"Mr. Utterback is a young man, with the greatest degree of enthusiasm, zeal and earnestness, with Paducah and its development close to his heart. He is in a position where he meets every one who comes to the city, and is down in the heart of the town, easily available at all times. He is always working for the city's advancement, and I think he would be an admirable man to head this new club," he said.

Upon motion of Mr. George C. Wallace, Mr. Utterback's election was made unanimous. The other officers were then elected and Earl Palmer, H. C. Rhodes and W. F. Paxton were appointed to nominate the board of directors.

Troops on Alert

Fort William, Ont., Aug. 14.—The entire city is under martial rule. It is believed the strikers have weapons hidden despite the confiscations yesterday. Colonel Steele, a Boer war veteran, is in charge, ordering the men to keep their rifles loaded and bayonets fixed ready for an emergency.

COUNTY JUDGE LIGHTFOOT REDUCES I. C.'S ASSESSMENT

County Judge R. T. Lightfoot reduced the assessment of the Illinois Central railroad from \$500 to \$200 for the benefit to be derived by the drainage of Blizard pond. The board of examiners assessed the railroad at \$500, and it objected. Evidence was heard yesterday in county court and County Judge Lightfoot decided that \$200 was reasonable. The Realty company offered evidence to the effect that at times the railroad track was submerged completely by the water from the pond.

Ballinger-Pinchot Controversy Promises to Bring Forth Inquiry From Congress, According to Post

MR. SOL DREYFUSS Vice-President of Paducah Commercial Club.

C. E. Jennings, J. C. Utterback and George McCandless. The officers of the club are representative of Paducah's best business men. Mr. Utterback, as cashier of the City National bank, is widely known in banking and commercial circles. He is a young man with great energy, enthusiasm and ability, and splendid judgment. He is interested in an active way in some of the largest and best corporations in the city and contributes liberally with his time and money to everything that makes for the city's development.

Mr. Sol Dreyfuss is one of the best known of Paducah's group of wholesale men that has carried the name of the city far and wide, and his firm is one of the most prosperous in Paducah. Mr. Dreyfuss has been a member of every commercial organization the city has had, and is always ready to do anything for the town's advancement.

Mr. Fowler served as secretary of the club for two years and as an evidence of the appreciation of his value his election last night was demanded by every one. He has a good grasp on the advantages of Paducah and is one of the best boosters any town ever had.

Mr. Rudy is cashier of the Citizens' Savings bank and president of the Sutherland Medicine company, and the head of the board of public works.

SAUNDERS A. FOWLER Secretary of Paducah Commercial Club.

Mother Dies, Typhoid Fever, and Rest Sick

An appeal for aid from a sick family of the name of Champion, residing in a houseboat on the Tennessee river nine miles from Paducah, was promptly given this morning by County Judge R. T. Lightfoot. Word was brought to the city by friends of the family that the mother of three children had died last night and the father and children were in a serious condition, suffering with typhoid fever. Judge Lightfoot gave an order authorizing the coroner to bury the body at the county's expense, and in addition sent County Physician L. E. Young to give attention to the sick man and children. The family is in poverty and on the verge of starvation.

Washington Post Expresses Opinion That Committee Will Investigate Alaskan Coal Monopoly Case.

Washington, Aug. 14.—Prediction that the Ballinger-Pinchot controversy will become a subject of investigation by a congressional or executive committee is made by the Washington Post today. The Alaska coal frauds are only a sample of revelations of the investigation. It formerly was believed the coal beds solved the industrial problem of coal to the Pacific coast, but the securing of it by a monopoly nullifies the saving.

Census Supervisors.

Washington, Aug. 14.—It is the opinion of Senator Bradley that the following will be appointed census supervisors in Kentucky for the districts indicated below:

First—Richard Jones, of Princeton. Second—Alec Anderson, of Hopkinsville. Fourth—Pilson Smith, of Greensburg. Seventh—Louis L. Bristow, of Georgetown. Supervisors for the Fifth, Sixth and Eighth districts have not been fully settled upon, it being understood that the senator will have the say in naming supervisors for eight of the eleven districts in the state. In all except the three which have Republican representatives in the house, he will doubtless soon decide who are to get the remaining places. As recently stated in these dispatches the senator had to revise his original list.

Reports are conflicting here as to when the supervisors will be appointed and sent to work—that is, in connection with the government payroll. A rumor gets out that the appointments may be made shortly and then along come men in high places who declare that Director Durand does not desire the appointments made until October, as there will practically be nothing for the supervisors to do until then.

President at Chicago.

Beverly, Mass., Aug. 14.—The president's program for his Chicago visit is arranged. He will arrive September 16 at noon, leaving early the next morning to continue his western trip.

RUSH FOR GOLD.

Bulawayo, British South Africa, Aug. 14.—One of the biggest "gold rushes" in the history of South Africa is now being made to Abercrombie district, in North Rhodesia. Tales of a big gold discovery there have excited the country for hundreds of miles. Engineers and prospectors are pouring into the country. Thousands of claims are already staked out, including several by a representative of the Consolidated Gold Fields of South Africa.

Rush Green Arrested

Frank, alias "Rush" Green, who is charged with cutting Robert Bower last night in a pool room fight in Mechanicsburg, was placed under arrest this afternoon at 2 o'clock by Captain Frank Harlan, of the police department. A charge of malicious cutting with intent to kill was entered against him. He gave bond for his appearance in police court Monday morning. Green was seen to come from an alley on South Fourth street opposite the sheriff's office and Deputy Sheriff Gus Rogers' office. He called him over and said "Rush told him he had given bond. Green proceeded to a saloon opposite the city hall and Mr. Rogers notified Captain Harlan of his whereabouts.

TURKEY HEADED OFF BY POWERS IN CRETON AFFAIRS

Paris, Aug. 14.—The French cruiser, Victor Hugo, left here today for Creton waters to join the British battleship Swiftsure and warships from Italy and Russia, the four "protecting powers" of Crete. The protecting ships will intercept any move against Crete by the Turkish fleet, which the French ambassador at Constantinople wires is off Carpathia, preparatory to making a demonstration.

Plot is Foiled

Logansport, Ind., Aug. 14.—Police declare they prevented a robbery of an Adams Express car here early this morning, containing \$600,000 cash being shipped from Chicago to the First National bank at Tipton, Ind. Four policemen guarded the strong box with drawn revolvers. Four roughly dressed men were overheard speaking of a plot to get the money when transferring trains here. The police were called and the suspects fled.

NEW YORK GARFT EQUALS HUNDRED MILLION A YEAR

Startling Figures Produced by Former Commissioner of Police Bingham.

Tammany is Responsible For All of it.

HE WAS OFFERED BIG BRIBE

New York, Aug. 14.—That hundred million dollars in graft and blackmail changes hands annually in New York, is the charge made by former Police Commissioner Bingham in the new number of Hampton's Broadway Magazine. He said that if he had been dishonest he could have made a million a year. Tammany, he declared, is responsible for the condition of affairs, and says Tammany could have been destroyed ten years ago. Politicians get the votes of the immigrant foreigners and bail them out when in trouble. When the judge gets word to "be easy" on a case, so it is not hard to see why the magistrate lectures the policeman and then discharges the offender. He said once he was offered \$5,000 cash and \$500 a month to shake hands with the keeper of a downtown restaurant just to show that the man had police protection.

Chicago Graft Case.

Chicago, Aug. 14.—The September grand jury, which will hear additional evidence in connection with the alleged acceptance of protection money by the police from resort keepers, will be drawn Monday. The new body will convene September 7 and stay in session until October 2, when new revelations in State's Attorney Wayman's vice crusade are expected. Attorneys for Inspector McCann, against whom ten indictments are drawn, are preparing his case.

An apple that attracted much attention was brought to the city today by J. C. Roundtree, of Sharp. The apple measured 13 1/2 inches in circumference and was perfect. It was picked from a tree in Mr. Roundtree's orchard and is one of the largest ever seen here.

He says several of the most wealthy and best known financiers and capitalists in the country are involved.

Central City Woman Slain While on Way Home From a Neighbor's House by Some Unknown Assassin

END OF JOY RIDE.
Philadelphia, Aug. 14.—Explosion of an automobile filled with joy riders killed one man, a woman is dying, another woman is critically injured and a man was badly injured in Fairmont park early this morning. Two other men and two young women were reported by police to be in the machine, but they cannot be found. They are uninjured and left the scene of the wreck immediately.

COUNTY GRAVEL ROADS WILL BE REPAIRED THIS MONTH

Good news is in store for the automobile owners and others who indulge in riding on the county gravel roads. For several months the gravel roads have been gullied with washouts and this morning John Thompson, county road supervisor, announced that he will let the contract next Saturday for repairing of the gravel roads. All this year the money and time on the county roads had been monopolized on the dirt roads, and some of the auto owners have been up in the air. County Judge Lightfoot was taken out and cited to the true conditions of the gravel roads, and the news that the roads will be repaired in the next few weeks will be joyful information for the joy riders.

VENEZUELA WILL COMPROMISE THE U. S. AND V. CASE

Dynamite Found

Sheerness, Eng., Aug. 14.—Although admiralty officers are trying to suppress the facts, it became known today that a terrible naval accident was narrowly averted by the discovery of dynamite cartridges mixed in the coal of the battleships Lord Nelson and Victorious, which were coaling here. As a result, every piece of coal on both ships was taken out of the bunkers and will be examined before returning to the vessels. It is believed to be the work of anarchists. Scotland Yards experts are working on the case.

Memphis Man Kills Politician.

Henderson, Ky., Aug. 14.—Argyle N. Lett, aged 32 years, of Memphis, shot Durwood Denton three times this afternoon.

The shots took effect in Denton's chest and death was instantaneous. Denton was a school teacher, and a prominent politician, his home being at Robards.

It is charged that Denton had written letters to Mrs. Jenn. Denton and his brother were in a buggy, and when they came to the Jewish synagogue they got out. Lett and Denton grappled and rolled in the dust. Lett fired three shots. A neighbor, hearing the shots, appeared on the scene and took Lett to police headquarters, where he surrendered to the officers.

To the man who took him to police headquarters Lett said: "I was in the right." Further than that he refused to talk.

Lett is a linotype operator, is employed on a Memphis newspaper, and is the son-in-law of Fred Haag of this city, who was formerly owner of the Henderson Gleaner, and for a number of years worked on that paper. S. D. Lett lives at Evansville, Ind.

Lett and his wife, Denton and others had been in a camp on Green river, near Rockhouse, about two miles from Robards, and they had recently returned.

Durwood Denton was a son of Mrs. L. D. Denton of near Robards, and was a candidate for the Democratic nomination for the legislature in the last primary election. He was defeated. He is survived by his mother and the following brothers and sisters, Miss Lottie Denton, Guw Denton, Dr. Irving Denton, Rex Denton, Mack Denton, Bert Hart Denton, and Mrs. Luther Royster.

Nothing more was heard from him until the receipt of the message telling of the tragedy at Henderson and the arrest of Lett. He is spoken of in terms of esteem by those who know him here.

DYNAMITE FOUND IN COAL BUNKERS OF BATTLESHIPS

Sheerness, Eng., Aug. 14.—Although admiralty officers are trying to suppress the facts, it became known today that a terrible naval accident was narrowly averted by the discovery of dynamite cartridges mixed in the coal of the battleships Lord Nelson and Victorious, which were coaling here. As a result, every piece of coal on both ships was taken out of the bunkers and will be examined before returning to the vessels. It is believed to be the work of anarchists. MAXIMUM OF HEAT REMAINS AROUND 97 UNDISTURBED

High Temperature Has Been Incessant Since Middle of July.

Illinois Corn Belt Sends Cry of Despair.

NO RAIN THERE IN TWO WEEKS

A slight breeze blowing today didn't have much effect on the heat and the thermometer mounted the 97 degree rung, making the highest for the day, and three days. The lowest temperature was 79. The official weather forecast for Paducah and vicinity is: Showers tonight and Sunday.

For five days the maximum has been 96 or 97, and since July 14 with six exceptions the maximums have been above 92. July 28 it rained here.

One section of the city reported today that residents could not get ice. At the local factory it was stated that the ice is being consumed as fast as it is manufactured, but there is no famine. The independent company reported plenty on hand, and that lake ice would be here tomorrow.

Heat Record.

Springfield, Ill., Aug. 14.—All heat records in the central Illinois corn belt were broken by the long term of hot weather, which has almost prostrated this section of the country and is now endangering the corn. Since July 27 the maximum temperature was not once below 84 and the last ten days it was not below 92. Since July 27 not one drop of rain fell. The ground is very dry and unless it rains soon crops will be ruined.

Only One Game.

Only one game will be played tomorrow by the Independents, as the players decided that to play a double-header tomorrow in the hot sun would be too much and the game with the Welles has been postponed. The game with the Benton team will be played, and Sanders will oppose Stille in the box. Benton will come with a strong bunch of rooters as the Marshall county lads will try hard to win from the Paducah boys on home ground. Tomorrow will be ladies' day, and the fair sex will be admitted free.

S.S.S. CURES BLOOD POISON

When the blood becomes infected with the virus of Contagious Blood Poison, the symptoms are soon manifested. The mouth and throat ulcerate, copper-colored spots appear, a red rash breaks out, the hair begins to come out, and usually sores and ulcers show themselves on different parts of the body. At the first sign of the disease S.S.S. should be taken, for the trouble is too powerful and dangerous to trifle with. If allowed to run on the tendency is to work down and attack the bones and nerves, and sometimes it makes a complete physical wreck of the sufferer. The disease can make no such headway if S.S.S. is commenced and used according to directions; its progress can be stopped, the poison removed, and health preserved. S.S.S. goes into the blood and removes the insidious virus, cleanses the circulation and makes a complete and permanent cure by driving out the cause. S.S.S. quickly takes effect on the blood, and gradually the symptoms disappear, the health is improved, the skin cleared of all spots, sores and blemishes, and when S.S.S. has thoroughly purified the circulation no trace of the disease is left. S.S.S. is a purely vegetable remedy, cures Contagious Blood Poison because it is the greatest of all blood purifiers, tested and proven for more than forty years. Home treatment book and any medical advice free to all who write.

Tobacco Market Closing.
Clarksville, Tenn., Aug. 14.—The tobacco market here is drawing to a close. The crop of 1907 was not sold until February of this year. The association graders made the mistake of placing the price too high, especially on low grades. This necessitated the regrading of several thousand hogheads, thereby delaying the sale. While the prices on the 1908 crop were put lower, they were sufficiently high to remunerate and satisfy the grower. At the close of today's sale about 325 hogheads have been sold this week. This leaves only about 200 hogheads now in the association houses, and it is thought there are about 75 hogheads in the pricing houses to be delivered. At the close of another week it is thought there will be but little if any old stock left on the Clarksville market. The growing crop looks very well at present, but in some localities rain is being needed. Cutting of the crop will begin next week, and all of the crop will be housed before the close of September.

Dan's Weekly Review.

New York, Aug. 14.—All branches of business affected by the new tariff law are rapidly adjusting themselves to the amended schedules and the ending of the uncertainty is stimulating trade. Reports from all important cities in all leading trades are most encouraging.

In iron and steel each week brings increased business. At the principal industrial centers the working forces are enlarging wherever possible, retail trade is more active as the pay rolls expand. Buyers are numerous in the dry goods markets. The uncertainty of prospects for raw cotton still causes delay in naming prices for the late delivery.

The footwear market continues in a waiting position but the adjustment of the tariff will bring more activity.

Bank Clearings.

Tobacco Blocks Traffic.

Street cars on the Rowlandtown line were blocked at Fourth and Jefferson streets for nearly 45 minutes yesterday afternoon when a transfer wagon, belonging to the Thompson Transfer company, loaded with three hogheads of tobacco, en route to the freight depot, broke down across the track at 3:30 p. m. Passengers on that line were compelled to walk to and from Fourth street and Broadway.

Bleached Flour Is Seized.

Muscatine, Iowa, Aug. 14.—The government has seized a carload of flour on the ground that it is a violation of the pure food act, because it is bleached. The orders coming from Secretary Wilson and Attorney General Wickardham. It is a test case. The result probably will affect every flour mill in the country.

A Promise to Pay

Would you accept a stranger's note? No. Then why accept from a stranger any other promise to pay? A Fire insurance policy is such a promise. Ought you to accept it without knowing all about the Company? Your usual business confidence is based on knowledge. Why make an exception in that part of your business which deals with insurance? A name is worth nothing on any kind of a promise to pay unless it is backed by character and resources.

We favor insurance knowledge, particularly about our companies. Their promises to pay have never gone to protest. Their obligations to its policy holders are backed with such a good reputation and such ample financial resources that the more you know about them the more you will want protection by their policies.

ATHLETIC MEET ON AT SEATTLE

FIRST DAY'S EVENTS CONFINED TO JUNIORS.

Three Records Broken But One Was Not Allowed to Stand.—J. Ballard Runs Mile in 4:24 3-5.

SEATTLE TEAM IN THE LEAD

Seattle, Aug. 14.—Before an enthusiastic crowd the first day's events in the annual championship meet of the Amateur Athletic Union were run off in the exposition stadium. The program was devoted entirely to the juniors, the team entered under the colors of the Seattle Athletic club easily winning the honors.

One American record was established when Gish, of Seattle, hurled the javelin 144 feet, eclipsing the previous American record of Pratt Adams, made at Philadelphia in 1903 when he threw the javelin 131 feet 6 inches.

Two A. A. U. junior records were made, but only one allowed to stand. The valid one was in the mile run, when J. Ballard, of the Boston Athletic association, made the distance in 4:24 3-5. The one disallowed was made by W. Donald, of Seattle, in the 120-yard high hurdles. His time was 1:15 3-5, but he upset two hurdles.

A Few Words to Fools.
There is a fool born every minute, so we are told, but there is also a great mortality among them. There are fewer active ones alive today than there were last week, or than there will be next Monday morning. It seems useless to say much to this kind of people, but we do wish to give a few suggestions in the interest of those who are not fools but friends and relatives of fools.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. \$1.00 bottles guaranteed.—R. W. Walker Co., Special Agents.

FULTON POLICEMAN SHOTS NEGRO WHO STOLE GRIPS

Fulton, Ky., Aug. 14.—Joe Anderson, a negro sneak thief from Mopoli, Ala., was shot in the right leg in this city by Policeman Leo Carter. The policeman spied the negro getting away with two grips. When the officer called on Anderson to stop he made a dodge behind a car with a suspicious movement as if to shoot, and the officer was the quickest on the trigger.

Another Enjoyable Evening Promised.

The ice cream supper being gotten up by the Christian Endeavor society of the Cumberland Presbyterian church promises to be a most pleasant affair. The Endeavors, in order

that they may better entertain all visitors, have arranged a nice musical program consisting of solos, duets and classical music and also several speeches by little folks for the children. There will be no charge for anything but the ice cream and sherbert, and the proceeds will be devoted to repainting the church. About one-third the amount required for this work was cleared at their ice cream supper given last month, and the society wish to clear enough at this one to finish out the amount. Therefore these young people are straining every effort to give an enjoyable evening to all.

MILITIAMEN IN MIMIC INVASION

THE MASSACHUSETTS NATIONAL GUARD TO BE BEIEGED.

"Reds" and "Blues," the Former Invading—Three Thousand Embarked at New York.

AUTOMOBILES ARE TO BE USED

Middleboro, Mass., Aug. 14.—Tomorrow Boston will be besieged by an armed "enemy." Landing on the southern coast of Massachusetts, the hostile force will endeavor to "capture" the city. Brigadier General William A. Pew, Jr., has been designated to command the entire force of Massachusetts troops against the enemy, which is nearly 40 per cent stronger. Major General Tasker H. Bliss will command the invaders. Both will be guided by the regular rules of warfare.

The automobiles will play an important part, and as the "red" army is much stronger in this respect than the defending "blue" army, barrels and giant tanks will be distributed over the roads of Plymouth and Bristol counties, which may be used by the "red" army. As the army can not subvert without a base, Pew will endeavor to compel Bliss to "about face" and attempt to recapture his base, at the same time fighting Pew in the place of the latter's own choosing. It is also probable that Pew will try to smash the rear guard of the enemy at the same time.

Saturday and Sunday there will be no fighting, but both generals will maneuver for position.

Embark at New York.

New York, Aug. 14.—Three thousand militiamen from Manhattan, Brooklyn and New Jersey embarked last night to attack the south shore of Massachusetts. The guardsmen constituting the "red" army, which will attack the Massachusetts "blue" are distinguished by red bands about their hats.

The troops that left last evening included the Seventh New York regiment; Squadron A, New York cavalry, and the Twenty-second New York engineers. Earlier the First signal corps, First, Second and Third batteries of field artillery, Fourteenth infantry of Brooklyn, and the Essex troop, New Jersey, embarked.

The militiamen from the District of Columbia and Connecticut will also assist in the attack. Major General Leonard Wood will umpire the war game.

IRRIGATION CONGRESS ENDS.

Among Resolutions Is Section Commending the Mississippi.

Spokane, Aug. 14.—With the election of officers, the selection of Pueblo, Col., as the next meeting place the adoption of resolutions commending both the efforts of Pinchot and Newell in the forestry and reclamation bureaus, asking \$19,000,000 for an irrigation fund from congress, and commending the Mississippi river deep waterway, the irrigation congress ended.

B. A. Fowler, of Phoenix, Ariz., was elected president; Arthur Hooker, of Spokane, secretary.

The Mississippi river waterways resolution, which was offered by Col. John I. Martin, of St. Louis, was opposed on the ground that other waterways were neglected. Because the Mississippi project is for the general betterment of the nation, the motion to strike it out was withdrawn.

SUTTON INQUIRY COMES TO END

WITH ARGUMENTS OF ATTORNEYS ON BOTH SIDES.

Court Meets Today in Private Session—Findings Will Be Sent to Washington.

WOULD CARRY CASE FURTHER

Annapolis, Aug. 14.—The arguments of Henry M. Davis, counsel for Mrs. Sutton, and A. E. Birney, counsel for Lieutenant Adams, concluded the inquiry into the death of Lieutenant Sutton. The court today privately considers the findings, which will be forwarded to Washington.

Mrs. Sutton said that if the findings declare, as did those of the former inquiry, that her son suicided, she would carry the case further.

Davis, in his address, argued that everything tended toward the negative idea that Sutton contemplated suicide, and said the present inquiry was the family's only course to remove the suicide stigma. He denied that the tragedy followed a drunken brawl, and blamed the officers who had acknowledged enmity toward Sutton for the fight preceding his death.

Davis asserted that parts of Lieutenant Adams' testimony were pure invention, and that the testimony of the other officers was conflicting. There existed, Davis declared, a manifest conspiracy of the suppression and falsehood to help the living and blacken the dead. The lawyer said his function was not to point the hand that killed Sutton, but only to show that he did not suicide.

Birney, addressing the court, declared the young lieutenants involved will be relieved of all the responsibility of Sutton's death, and said that the charges were based entirely on the "frantic raving" of Sutton's mother. Birney placed Sutton in the attitude of a whipped coward, and declared that Sutton went to camp armed with the deliberate purpose of doing murder. He contrasted the grief of the mothers of the other young lieutenants with that of Mrs. Sutton, and he insisted that Sutton either deliberately suicided or killed himself while trying to kill another.

Major Leonard, judge advocate, protested against two points in Davis' argument, and the inquiry then closed.

The has-been is entitled to a lot more sympathy than the never-was.

Daily Thought.

If we gave assistance to each other no one would be in want of fortune.
—Menander.

Frankfort papers say the report of an expert accountant will disclose the fact that Franklin county officials are short; but not through malice—only bad bookkeeping. It is a marvelous fact that in all bad bookkeeping discovered in 100 of the 119 counties of Kentucky the errors all lay against the state and counties.

"HIGH PRESSURE ON WEAK HOSE." screams the Owensboro Messenger in flaming headlines. Will they never cease discussing woolen schedules?

"Some of the papers in the western portion of the state are booming Prof. Charles M. Jones for the Democratic nomination for state superintendent of public instruction in 1911, and we learn that he is the same Professor Jones who taught school at Arlington for a year or so."—Carlisle County News.

It's a shame to leave us in doubt, that way. Tell us something about him.

THE CURSE.

Is there no way of taking the "curse" off inherited wealth?

Theodore Harris, a wealthy Louisville banker, left a small income to his children, and gave the bulk, amounting close to a million, to the Kentucky Baptists; because he said the observations of a life time had taught him that "inherited wealth is seldom useful to the one inheriting it."

If Mr. Theodore Harris was an extraordinarily smart man, he must have had wonderful powers of concentration, and consistently concentrated on his business; for the observations of his life time, as summed up in his last will and testament, were not acute.

Is there an inherent curse in "inherited wealth?"

It was well, then, for Kentucky Baptists to search for some voodoo charm to take away the curse.

Mr. Harris' observations of a life time may have been confined to reading newspaper accounts of the Thaw trials and business dealings with the pampered children of wealthy parents.

There's the rub.

If men who become rich, would pay as much attention to their boys and girls as they do to their property, the curse would be lifted from inherited wealth.

The position of a rich man's son is all things that count, is much more difficult to fill than that of a poor man's son. Also, the position of father to a rich man's son, is a position of terrible responsibility, and most men dodge the responsibility or realize it too late.

A man makes wealth and thinks he has done his whole work. That wealth will live after him, and whether or not it is to curse his posterity and the whole community, depends upon the kind of men he has

trained to take care of it, after he is gone.

The trouble with Harry Thaw was not his father's wealth; but the neglect of his character when he was young. Give a man character and will and moral balance, and neither wealth nor poverty can alter or hurt him. Neglect a child or pamper him when young, and whether he is left in wealth or poverty, the curse will be there.

Rich men's sons, who go wrong, cut larger capers than poor men's sons, who go wrong; but the gutters are full of moral deviants, who inherit no wealth; but are victims of the same curse, from which Theodore Harris would save his progeny.

We wish the Kentucky Baptists luck with the Harris fortune. We assure them there is no curse in the money if Theodore Harris earned it honestly, and the amount doesn't make the church feel opulent.

SOME STORIES AROUND TOWN

It's just too bad; but a bunch of merry maidens, who have been passing away the hot days in a cool place this summer, playing French pool or progressive euchre, by investing the ante in silk stockings, will either have to raise the limit, be less exclusive or substitute cotton hose for the soft clinging stuff so dear to the feminine heart. It was this way. They all went to the—oh, dear, I almost said it—to the place the other morning and with true sportsmanlike disregard of such inconsequential things as the cost of them, hung up the stake and proceeded to play.

When the game closed it was found that they were fifty cents shy on the price of the stockings.

"Who won them?" screamed a voice, while they were all cogitating over the problem, each one inwardly figuring how she could squirm out of the expense.

The question suggested the same idea to every mind, excepting one, and that one belonged inside the head of the girl who won the stockings. She didn't speak up. Let her name be Maude.

"Maude won," said another. They all looked at her.

"Yes, I did," she replied sulkily, "and that lets me out of paying for them."

That wasn't exactly what the others were thinking.

"You horrid thing," shouted Maude. "You ought to be willing to put up the difference. It'd make 'em chump to you at 'at."

"I don't want the prize, anyway," continued Maude. "It's a case of the winner losing."

So there the matter rests. Somebody owes a dry goods store fifty cents, and there is a nice pair of silk stockings on the—Oh, dear, there I almost said it again.

Well, of course, the question is up to the storekeeper, in a way—who are the stockings on? Now, how is a storekeeper to find that out?

"Eighth of August with its abundant crop of jokes and funny incidents has passed away once more. Of course, the day is always a big one for the police who mingle with the crowds and see many humorous sights. During of hours these jokes are told and the station at the city hall is a regular clearing house for them. Tuesday afternoon an old negro, a former slave, paused at the city hall steps to rest. While he was there the patrol wagon drove up and a young negro was led inside. The negro had been celebrating strenuously and his shirt was torn to shreds. Glancing at the young buck the old negro mused: 'Well! well! some niggers sho has got curious ways ob havin' fun. Here I hab bin all around dis town today and had de time of my life but I ain't had my shirt torn off. Shame on you nigger you've done spilled your fun for de rest of dis glorious day and hit serves you right.'"

Officers around the sheriff's office have made Constable A. C. Shelton the butt of more than one joke, but the latest has touched the peace officer severely. During the celebration of Emancipation day he was stationed at the fair grounds. Deputies Gus Rogers and Clark Fortson were watching the crowds in the afternoon when they were startled by the sound of a shot. Quickly the deputies started for the direction of the shot and soon ran across Constable Shelton. The peace officer was sprinting but stopped long enough to say: "A negro took a shot at me, but I shot, too." The deputies declare only one shot was fired, and have been buzzing Shelton ever since.

Broadway does not have the sole honor of possessing a mirage. According to County Assessor J. Wes Troutman the wonder of Tenth street and Broadway is surpassed a country mile by a phenomenon on South Third street. On any sunny day the assessor says a person can stand at Norton street and face south and see the mirage between the ice factory and the old Rigleberger mill.

The shadow of a vehicle may be seen distinctly, and easily, besides being much plainer than the mirage on Broadway. It was noticed first by Mr. Troutman and others several months ago.

It is amusing to be in a preacher's study some time when an obscure couple drops in to get married, and hear the same ceremony delivered that is prepared for a swell society wedding. Recently a minister was engaged to marry a couple of prominent people and the church had been

decorated until it resembled a green house. Rehearsals of the wedding were held for the wedding was attended with much splendor and pomp. The morning before the wedding a couple from Illinois dropped in for the "parson" to wed them. The minister had practiced hard on his lines for the society wedding, and standing with the couple in his office he delivered the same ceremony that he used that night. The preacher did not get a ten dollar gold piece for the job, but it was a bargain day as he served them with an elaborate ceremony and prayer for \$1.50, all the groom could rake together.

STATE PRESS.

Clinton Gazette.
In the Second senatorial district, composed of Ballard, Carlisle, McCracken and Marshall counties, many Democrats were not satisfied with the way in which Mr. Eaton of Paducah secured the nomination for State senator in the convention held at Paducah. The state of unrest in the district has grown instead of quieting as time ran on, and has at last culminated in an effort to have the nomination declared irregular and invalid. The district committee will be petitioned to order the action of the convention set aside on the ground that the committee was not sworn as the law directs and as the courts have declared to be necessary. Whatever legal grounds there may be to attack the action of the committee, it seems to be a case in which the will of the people was not carried out in the nomination of Mr. Eaton and the people are still masters of the situation if they care to assert themselves.

In Calloway.

It is never too warm for politics in Calloway. There is a lively fight on for county offices and the following contribution to the Murray Ledger, by Hon. T. W. Patterson, county judge, indicates something of the trend of a preceding article in the Calloway Times:

"Whom the Gods would destroy they first make mad."

Would the editor of the Calloway Times please explain to an inquiring public why it is so intensely interested in what it is pleased to call "Honest Republicans" refusing to support the present nominees for county offices?

Why does it give so much, what is usually considered "valuable space" in most any other paper, to complaints from Republican sources.

If there should be any number of Republicans in this county who do not wish to support your humble servant for county judge, Charley Jordan for sheriff and Dick Langston for jailer why should you give voice to their lament?

Why this suddenly developed anxiety for harmony in the ranks of the G. O. P.?

Would it not seem more in line with your past utterances on the subject to treat us with silent contempt, or at least content your 234 brain with hollowing nigger, nigger, and again nigger?

Why is it, oh why is it, and we pause to inquire, is this the same Calloway Times that only a few years ago would have treated the idea of a Republican offering for office in this county as a "huge joke?" And if "Uncle Ace" will

show business. This is purely a private speculation of mine, and need not disturb your troubled slumbers. I am also here to show up such political hypocrites as you and others of your ilk, and on the second day of next November I am going to put on a show that will cause you to "sit up and take notice."

Why don't you come out in the open, and fight fair? Why hide behind a fictitious name, and seek to besmirch the reputation of men who at least has the nerve to stick their name to any article they may write? It's a dirty bird, "Uncle Ace," that would befool its own nest, and if you are what you claim to be you are at present engaged in that business.

I sincerely trust the decent citizens of our county will pardon me for noticing these dirty slings, and I had resolved not to but they have reached a point where forbearance ceases to be a virtue. And the majority of them are aimed at me direct. I want the good people of this county to know who is at the bottom of these attacks, and if possible I am going to "flush the game."

Should a few, or even any number of Republicans, think best to vote against me, it is a privilege granted them under our constitution, and I shall not harbor the least of ill will towards them. I went into this race to win and as it has never been my desire to sail under false colors, I sought the nomination at the hands of my party. It was given me, and I am in this fight to stay. But should any honest Republican oppose me in the race I think it but simple justice if you rush into print with charges against me that you should at least have the fairness to sign your names to your charges. To use an old but true expression, "I can fight with a lion that roars in my face, but I don't like a cur at my heels." I want the people of this county to know that these dirty, contemptible slings at me are written right here in this town by political tricksters and demagogues who would sell their souls for a mess of pottage.

Taft's Hoodoo

WON IN GOLF GAME ON LUCKY FRIDAY.

President Accepts Invitation of Boston Chamber of Commerce to Attend Annual Banquet.

Beverly, Mass., Aug. 14.—On the Friday, the thirteenth, Taft's golf "hoodoo" disappeared, and the president, with his partner, John Hays Hammond, defeated Gen. Adelbert Ames and W. J. Boardman, one up. Taft was consequently merry.

The conference regarding the appointment of census supervisors will be held today. Secretary Nagel, Postmaster General Hitchcock and Census Director Durand have come to go over the list of 330 supervisors with the president. Taft appointed Charles A. Overlock a United States marshal of Arizona. Overlock succeeds Ben F. Daniels, the "Rough Rider," appointed by Roosevelt. It was thought that Daniels had been added to the rough riders who are rapidly disappearing from public office, but it was explained later that the ex-marshal had been appointed superintendent or chief of police of the Indian reservation at Menominee, Wisconsin.

The president received a committee from the Boston chamber of commerce and accepted an invitation to attend their annual banquet on September 14. The western tour will begin the 15th without return to Beverly.

BAFFLED BY KIDNAPER.
Divorced Wife Twice Succeeds in Escaping With Little Girl.

Bristol, Tenn., Aug. 14.—A remarkable case of kidnapping has just come to light in Bristol by the return of G. P. McCormick, of this city, from Oklahoma City, Okla., where he went in search of his pretty 7-year-old daughter, little Hazel McCormick. Mr. McCormick was divorced from his wife, Mrs. Nannie Crow McCormick, some years ago, and the court gave him custody of the child. He placed it with a well known Bristol family.

Mrs. McCormick moved to Kentucky, but returned to Bristol three weeks ago and went to see Hazel. She persuaded those in charge of the child to allow her to take it to a photograph gallery to have its picture taken. Instead she boarded a fast train for Oklahoma City.

When the father learned what had occurred he hurried to Bristol, and after spending a day or two in sending telegrams all over that part of the west, took a train for Oklahoma City. He employed a detective and succeeded in locating Mrs. McCormick and the child in an apartment house. She agreed to give up the little one.

He left a detective to watch them until he went to his hotel and made preparations to return to Bristol with the little girl. Returning two hours later, he could find neither the detective nor the woman and child, finding that they had left. He is preparing to go west again and is determined to recover the child at whatever cost.

PEONAGE CHARGE MADE.

Government to Investigate Charges at New Gascony.

Pine Bluff, Ark., Aug. 14.—John Clifton Elder, special representative of the immigration committee, of Washington, D. C., arrived in Pine Bluff on his way to New Gascony this county, to investigate charges of peonage recently filed with the commission by Moroni, the Italian consul, at New Orleans.

The charges are based on stories told of two Italian laborers who are said to have recently made their escape from the plantation of John M. Gracie, the largest cotton planter in this state, and who has fifteen plantations of eight thousand acres in cultivation. The names of the Italian complainants were not revealed by Mr. Elder in discussing the charges. Mr. Elder will leave this city Saturday morning for New Gascony, where he will personally investigate conditions there and report to the national immigration commission.

This commission, if the findings justify, may visit the Gracie plantation and personally inspect it.

CONGER SALOON RUNNING

Only One in State That Does Not Violate Law.

Chattanooga, Tenn., Aug. 14.—There is one saloon in Tennessee now being operated without apparent violation of the state-wide prohibition law. It is the famous Conger saloon, in the Cumberland Mountains, near McMinnville, and is the only spot in the state where the four-mile law does not apply.

W. R. Hamilton, superintendent of the state anti-saloon league, has just made a thorough investigation of the saloon and its environments and will at once begin a campaign to oust it.

The property on which the saloon is operated is owned by Col. A. M. Shook and was leased for grazing purposes only. He is said to have authorized ejectment proceedings.

Elwood Neel, deputy United States marshal has returned from Edyville, where he served papers in the case of Meyer-Schmidt, Clark Grocery company and others against Harvey G. Smith for \$500. The creditors are seeking to throw him into involuntary bankruptcy. Smith is a general merchant.

New Compass for Warships.
The new compass recently adopted by the German government for their warships is a remarkable instrument. It is known as the gyroscopic compass and is the invention of Dr. Anschuetz-Haempfe.

A nine-pound wheel mounted in a holder of quicksilver is made to rotate at the rate of 21,000 revolutions a minute by an electric motor. After running for two hours the wheel is set in the direction of the mathematical meridian, which direction it maintains. The advantage of the new compass is that it is entirely unaffected by neighboring iron or steel or by vibrations and rolling of the vessel.

A compass card attached indicates direction in the usual way.—London Globe.

CATARRAL DISEASES OF SUMMER TIME.

Most people think that catarrh does
not prevail in the summer time. Cat-
arrh is generally regarded as a winter
disease.

It certainly is true that catarrh of the
throat, bronchial tubes and lungs is
more prevalent during the winter time.
But it is also true that catarrh of the
stomach, bowels and kidneys is more
prevalent during the summer time.

Thus we have catarrhal diseases of sum-
mer, and catarrhal diseases of winter.
It is probably true that the mortality
from catarrhal diseases is greater in the
winter time than in the summer. But
yet there is an alarming number of peo-
ple who die annually from those cat-
arrhal affections that are peculiar to
summer.

Catarrh is a chronic congested inflam-
mation of a mucous membrane. The
mucous membrane of the stomach is
just as liable to catarrh as the mucous
membrane of the throat, the lungs, the
bronchial tubes. Catarrh of the stom-
ach is the same kind of a disease as
catarrh of the throat and lungs. So, also,
catarrh of the bowels. Catarrh of the
kidneys. Catarrh of all the other in-
ternal organs.

Catarrhal diseases peculiar to summer
are, catarrh of the stomach, sometimes
called gastritis; catarrh of the small
intestine, sometimes called enteritis;
catarrh of the colon, sometimes called
colitis. These diseases are very pre-
valent during the summer, especially if
the air be hot and humid.

We regard Peruna as an excellent
remedy for these forms of internal cat-
arrh. Dr. Hartman's practice, which
covered a period of many years, in
which he used chiefly Peruna for all
bowel diseases, is confirmatory of this
fact, from the standpoint of a profes-
sional test.

The multitude of letters that we re-
ceive from all parts of the United States,
in which the effect of Peruna is de-
scribed upon catarrhal affections of the
internal organs, would make it appear
that Peruna is certainly one of the
greatest remedies for this class of dis-
eases, if not indeed the very greatest.

In colic and cramps, attacks of in-
digestion, distention of the bowels by
gas, diarrhoea, constipation, Peruna is
relied upon by thousands of people and
its use as a household remedy gains a
stronger hold upon the people as time
goes on.

Hurry Call Issued.

Columbus, O., Aug. 14.—A hurry
call has been received from Anglaise
county by the Ohio live stock com-
mission because of an outbreak of
scabies among sheep. Deputy in-
spectors were sent at once to make
investigation and take the necessary
precaution to prevent the disease
from becoming an epidemic. For the
reason that quite a number of no-
tices have been received that scabies
is prevalent in Kentucky, steps may
be taken by the commission against
importation from that state.

COUNTY SCHOOL TEACHERS LEAVE

**CONCLUDE THEIR SESSIONS AT
MCCRACKEN COURT HOUSE.**

Adopt Resolutions But Omit Nomina-
tion of Superintendent By
Teachers.

ENDORSE SCHOOL LEAGUES

The McCracken County Teachers' In-
stitute was closed yesterday after-
noon following the rejection of the
paragraph in the resolutions advocat-
ing the nomination of the county
school superintendent by the teach-
ers. The paragraph was reached yes-
terday at noon, and the discussion
waxed warm, but before a vote was
brought up the institute was ad-
journed for dinner. Yesterday after-
noon the discussion was renewed.
Prof. J. S. Ragdale, a member of
the committee, made a speech in fa-
vor of endorsing the resolution and
L. B. Alexander, the Republican nom-
inee for county school superintend-
ent, made a speech opposing the res-
olution, and when put to a vote the
resolution was rejected by a vote of
25 to 0.

The full list of resolutions adopted
was:

Your committee on resolutions sub-
mit the following:

After one year's trial of the new
school law, we are convinced that it
is superior to that which it displaced.

We favor the consolidation of the
schools of McCracken county into 12
or 15 schools, and the transportation
of the children at public expense
when in the opinion of the county
board it is expedient. We favor an
amendment to the school law re-
stricting free tuition in the state
normal schools to those who have
completed a four-year High school
course or its equivalent.

We heartily endorse the adminis-
tration of our county superintendent
S. J. Billington, and we appreciate
his efforts to make better the schools
of the county.

We approve of the present rate of
county taxation.

We endorse the work already done
by the school improvement League
and pledge our co-operation with the
League in any good plans for the bet-
terment of the schools or the home.

The fact that Supt. T. J. Coates
has been recalled to conduct our in-
stitute for consecutive years is a suf-
ficient evidence of the appreciation
and high regard the teachers and
superintendent hold for him.

Respectfully submitted,
J. S. RAGDALE,
DORA DRAFFIN,
W. T. LAWRENCE,
Committee.

A Mosquito Killer.

Dr. William Tell Kudlich has
brought to the notice of the health
board of Hoboken, N. J., a plan for
exterminating the mosquito, which
consists in planting mosquito in-
fested tracts with arizolia. The plant is
a native of Africa. In a short time
it covers marshy land with a layer
three inches thick, thus both suffocating
mosquito larvae and preventing the
living insects from depositing their
eggs in the water.

Congratulations to Ecuador.

anniversary of the first movement on
the part of the people of Ecuador to
secure their independence of Spain
and it has been decided to continue
the exposition that was opened yes-
terday to commemorate the event un-
til the end of December.

DRAW FOR INDIAN LANDS

Thousands Interested in Flathead
Reservation.

Coeur D'Alene, Idaho, Aug. 14.—
Joseph Furay of Warsaw, Ind., is the
name of the lucky winner of No. 1
in the drawings for land on the
Flathead Indian reservation today.
Furay is 33 years old.

The drawing, which is the greatest
of the three famous Indian land
drawings, began here today in a big
wire cage. Six thousand numbers,
representing 2,500 land claims on
the Flathead Indian reservation in
northwestern Montana, are to be
drawn. Today 1,500 names are to be
chosen, and Saturday will complete
this part of the task.

The method of selecting the ap-
plications and announcing the win-
ners was the same as employed Mon-
day on the Coeur d'Alene drawing.
Portions of the lands have been
withdrawn under the reclamation
act, the withdrawals, it is under-
stood, including valuable water
power sites.

The only smile that helps rise in
the heart.

But if he traces yours
Upon the shifting sand,
Or cuts it on the bark
Of woodland monarchs and
Though thrilling it may not
Grim poverty withstand.

And therefore to be safe
And never meet with wreck,
To know both fame and love,
With neither flaw nor fleck
Tis well to choose a chap
Who writes names on a check
—Melancthon Wilson

He frowned in perplexity at
seeing she was out again. "I won't
Jimmie, if your sister realizes,"
said bitterly, "that I have been
her to three taxi rides and four op-
erations this month!"
"You bet she realizes it," said the
small boy, grinning. "That's what
she's kept her engagement to do
Johnson a secret."

SAGE FOR DARKENING THE

HAIR.

There is nothing new about the

idea of using sage for restoring the

color of the hair. Our great grand-

mothers kept their locks soft, dark

and glossy by using a "sage tea."

Whenever their hair fell out or took

on a dull, faded or streaked appear-

ance, they made a brew of sage

leaves and applied it to their hair

with wonderfully beneficial effect.

Nowadays we don't have to resort to

the old-time, tiresome method of

gathering the herbs and making the

brew. This is done by skillful

chemists better than we could do it

ourselves, and all we have to do is

to call for the ready made product.

Wyeth's Sage and Sulphur, contain-

ing sage in the proper strength, with

the addition of Sulphur, another old-

time scalp remedy. This preparation

is sold by all first-class druggists for

50c and \$1.00 a bottle, or is sent di-

rect by the Wyeth Chemical Com-

pany, 74 Cortlandt St., New York

City, upon receipt of price. For sale

A Radical Departure.

There never was a time in the history

of the world when good stories

and articles could command such

large prices as they do today. It is

an extremely expensive thing to pub-

lish a high-class magazine nowadays

filled with the best products of the

most famous authors and artists.

Yet together with its many attractive

features the Chicago Record-Herald

furnishes its readers with its

Sunday Magazine section that com-

pares favorably with the best week-

lies and monthlies, and has some

merits peculiar to itself. The most

famous writers and illustrators con-

tribute to it. Some of the choicest

novels of the year are published seri-

ally in its columns before they see

light in book form. The best new

humorist since Mr. Dooley began

writing is a regular contributor to its

columns alone. To furnish such a

magazine with every copy of a Sun-

day newspaper is an amazing venture

yet the experiment has proved a com-

plete success and is now firmly estab-

lished.

Hate to Go Around.

Complaints from farmers as well

as Paducah autoists are coming in

about the condition of the Hinkle-

which are being torn up so that the

be replaced by concrete structures. It

is said that both bridges on these

roads are now impassable. Paducah

autoists have been experiencing in-

conveniences as the dirt roads are

being torn up and improved.

**BUSINESS GOOD
FOR HOT WEATHER****MERCHANTS CANNOT COMPLAIN
OF THE PATRONAGE.**

Some Building Prospects Indicate the Trade Will Be Lively in Paducah This Fall.

MANY PEOPLE OUT OF TOWN**BANK CLEARINGS.**

This week.....\$677,356.

For a hot week in August, business has been exceptionally good when the clearings range near the \$700,000 mark. The hot weather has interfered with the retail trade as many people preferred staying at home trying to keep cool to chasing up bargain sales. Then to take a census of the city just now would reveal a bad state of affairs, for the springs and health resorts have gained quite a proportion of Paducah's population.
 All the merchants are preparing for an active campaign in business this fall as it seems in the air every where that business will be normal. The fact that the Illinois Central shops are running with the largest force in its history will be a big thing

to bring back confidence. Next Tuesday will be pay day for the railroad and the amount of money that will be turned loose will be much larger than usual as the first effect of the increased force will be felt.

The directors of the First National bank are expected to erect a new building this fall. At present the plans are being decided upon. It is assumed that the bank will expend \$40,000 for the new building. Work will begin on the new fire station and the addition to the city hall this month and employment to a large force of mechanics will be given.

Reports of bumper crops from the west insure the people that money will circulate freely this winter. Railroads are preparing for a large business, and almost every shop is busy repairing cars and motive power to care for a steadily increasing business.

STROLLING**MINSTREL MEN STROLL ON AND
ESCAPE \$50 FINE.**

Patrolman Gourieux Picks Up Two Wanderers and They Pass On Their Way Fined.

Two colored strolling minstrels, giving their names as Will Williams, of Mayfield, and Ed. Rudd, of Memphis, were tagged by Patrolman Gourieux at Ninth and Washington streets at 9 o'clock this morning, and "strolled" to police headquarters in the patrol wagon, where Judge Cross gave them a three-hour limit to stroll out of town. Judge Cross had just rapped for order when Patrolman Gourieux marched in with his captives. One was armed with a guitar and the other with a mandolin.

According to their statements they had been touring the United States playing and doing odd jobs for money. Owing to the chain gang being full to running over the court declined to give them jobs for the city and entered a fine of \$50 against each, suspending the judgment on condition they leave town by noon. They agreed to depart within ten minutes and left after thanking the court.

Capt. Jim Smith, of the towboat Nellie, is confined at his home in this city, with malarial fever. He was some improved today.

At some stage of the game every man poses as his own hero.

**MORE COLORED SOLDIERS
ARE NEEDED IN THE ARMY**

The United States army is shy a large number of colored soldiers, and an order has been sent out from the Washington war department office authorizing the enlistment of all suitable colored men, either single or married. Heretofore the law has barred married men, but the shortage necessitates the enlistment of them and married men will be taken if they pass the requirements for service. This morning Sergeant C. A. Blake received a letter instructing him to take all colored applicants. The letter stated that there are 84 vacancies in the mounted service school detachment, colored, at Fort Riley, Kansas.
